

Referenties

Boek Muziek en brein, B. van Cranenburgh, Toegepaste Neurowetenschappen.
Tweede editie 2022.

Een belangrijke wetenschappelijke referentie-bron is de serie "The Neurosciences and Music", uitgegeven in samenwerking met de Mariana Foundation die iedere 3 jaar een congres over neurowetenschappen en muziek organiseert.

MN-1: The cognitive neuroscience of music (Peretz en Zatorre), Oxford 2003.

MN-2: The neurosciences and music 2 (Avanzine e.a.), Ann NY Ac Sc Vol. 1060, 2005.
